TRAIN DITCHED BY THE STRIKERS Parsons (Kas.), March 30th.—Passenger rain No. 154, north bound, was ditched five miles south of here, and the engine, mail car and baggage car thrown down the emnkment. The mail car struck a telegraph pole and broke it. The only one seriously hurt was Mail Agent Moore, who has been taken to his home at Osage Mission. The track will be cleared to-day. The wreck was caused by a fish-plate being emoved, and the rails spreading, the fish-date was then spiked down so the rails uld not possibly get to their place, theremaking the wreck inevitable. Great inne perpetrators of the crime, and it is some clues as to who the guilty parties are.

In this connection it may not be out of place to state that among the causes of Mrs.

Another reason was that she called upon scholars to assist her in punishing pupils for offenses. Mrs. Jones now defies the School Trustees and the taxpayers, and says that she will hold the fort in spite of them. We would like to know if she and

Mr. Bishop are right, or if the people have the right manage their affairs to suit themselves. Respectfully, Leland Stanford for President.

Scrofula is probably more general than any other disease. It is a "jug-handle" question; there is but one side to it; there is absolutely nothing to be said on the other side. Just now the towns of California are in the formative it, and take the places in order of importance which they are to retain. The town or city that improves its present opportunities is wise; those that neglect them will find, when trade has permanently lo cated, when property interests have become fixed, when capital has immovably invested and population settled down "to stay," that it will be too late. It is history, that as against the stronger natural advantages of rival locations, large cities and towns have been built by virtue of the concentration and fixation of interests which could not, even under the strongest thorship, but denies it emphatically. Inactivity now is dangerous. Activity means wealth, progress, prosperity.

Mr. De Long, in the course of his remarks, several times made the assertion that the Sacramento association would not be able to ship a full train this season, and offered to wager \$100 on his assertion. The book gives the date of Miss Anderson's birth in Sacramento as July 28, 1859, and says she comes of German blood on her mother's side and English on the paternal side. Among the incidents recorded is her non-success in San Francisco ten years ago, and which was witnessed by Edwin Booth but who saw the true quality of the ther undeveloped artiste, and gave her advice she adopted. It recounts her subsequent triumph in the South; her two trips to Europe and steady successes there, the (Owen Meredith), and the great friendship for her of the poet Longfellow, and the support all these gave her in her studies, and brings down the story to her return to America. The Opera House was packed last night. It was the largest audience ever in that theater. The Hanlons with "Fantasma" have made a perfect hit. Much inquiry, mingled with complaint is being made daily relative to street sprinkling, as the dust has become very annoying. The City Trustees usually let contracts for sprinkling for six months from May 1st, but the expression by tax-payers is to the effect that the term of the ontract should be extended at least one month.

Fire Last Evening.

The discovery that the residence of J. Schweitzer, on the west side of Eleventh street, between K and L, was on fire caused the alarm from box No. 43 at 9:40 last ons to their friends failed to reach their evening. When the department arrived estination, by reason of causes beyond the building was full of smoke, and it was thought to be on fire throughout. The trouble, however, proved to have origin-ated in a small bedroom, near the rear of the building, the fire having started either in the bedding or beneath the bed-a hole in the floor indicating that the latter theory was correct. The room was considerabl charred, and its contents badly damage The house having a cloth-and-paper lining, the fire passed through into the next room, burning a small hole in the partition. The damages to building and contents are as much from smoke and water as from fire; but if the discovery of the blaze had not been made in such good season the house would doubtless have been destroyed, and possibly adjoining buildings endangered The loss to the building is covered by in surance, but the furniture was uninsured. There was no one in the house at the time of the fire, Mrs. Schweitzer having gone to visit friends in the foothills yesterday, and Mr. Schweitzer, who is a street-car driver.

### DOMESTIC.

A Florida City at the Mercy of the Frames. KEY WEST, March 30th .- Five blocks in e center of this city were burned this norning, and the fire is still raging. It started in the San Carlos Theater at 1 o'clock this morning. The Episcopal and Baptist churches were among the buildings consumed. Over fifty houses have already been burned, including the Masonic Hall, three or four cigar factories and Conde's warehouse, containing nearly a quarter of a million dollars worth of tobacco. Officers from the United States steamers Brooklyn and Powhattan have been blowing up some of the houses with powder. There is no water supply, the cisterns being mostly dry. It is now settled that the fire will not dry. It is now settled that the fire will not stop until it reaches the harbor. It is now entering the business part of the city, destroying buildings containing heavy stocks of goods, and the loss will be very great. BARLEY-The market is in very good shape BARLEY—The market is in very good shape. Stocks have been so well reduced that feed offerings are rather scarce, but holders so far do not exhibit inflated views as to values. Good stock can yet be bought for \$1.32½ \( \frac{1}{2} \) ctl. though there are some holders who believe the situation warrants an advance, and consequently ask \$1.35 \( \frac{1}{2} \) ctl. Brewing descriptions show more steadiness in price, while custom keeps active and regular. Most of the business in this line is transacted at a range of \$1.40@1.50 \( \frac{1}{2} \) ctl, though occasionally there are sales of fancy quality at \$1.53\( \frac{1}{2} \) 67 \( \frac{1}{2} \) ctl.

FRUIT-Asking prices for Eastern Apples ar

FRUIT—Asking prices for Eastern Apples are constantly lowering, owing to poor demand. The quality of consignmen s so far received has not been choice. Oranges are less plentiful and prices are firm. Kaspberries are seen but two or three times a week, and then the quantity that comes to market is very limited. S.rawberries are daily enlarging in amount, and sales will soon be made by the chest instead of the drawer. There are no choice California Apples now in the market.
